

Class Dojo Help Sheet: (Uploading photos to portfolio activities)

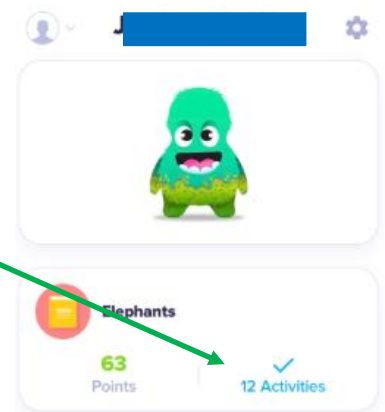

As part of home learning your class teacher will be providing activities on Class Dojo for you to complete with your child at home. These will be updated often and we would appreciate it if you could attempt these with your child and upload the evidence requested e.g. it may be a photograph of your child completing an activity.

Here is are the steps for uploading a photo to the portfolio activities section:

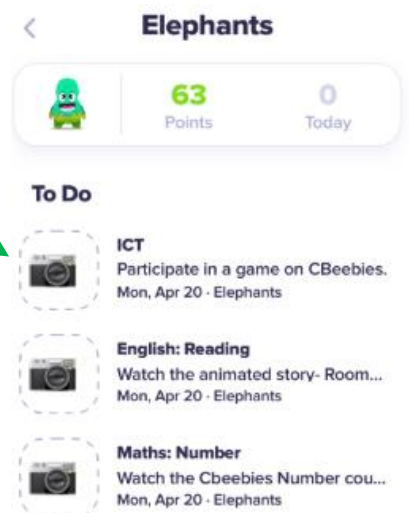

1. Switch accounts from your parent account to your child's account. If you have not set this up, see the 'accessing Class Dojo activities' help sheet.

2. Click on activities.

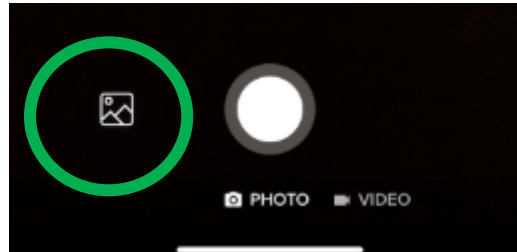

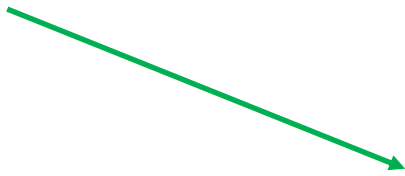

3. Click on the activity you would like to upload a photo for and then click start.

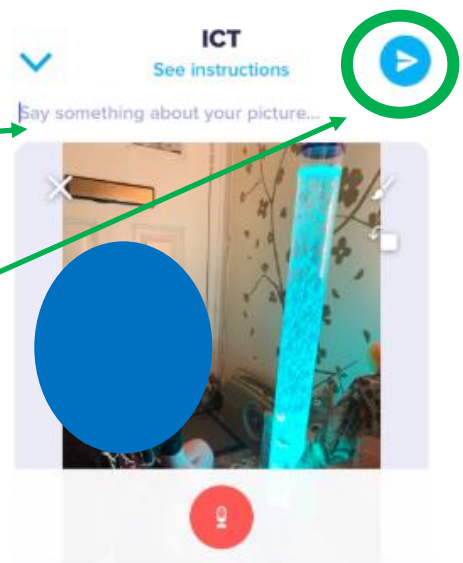

4. Click start!

5. This screen will then come up. You can either take a photo, or click on the photo icon at the bottom of the screen to choose a photo.

6. You will then see this screen, showing the photo you have chosen. You can type a sentence in at the top if you want to tell us more about what your child is doing.

7. Then click the blue arrow at the top right of the screen and your photo is uploaded!

Your photo will then come up as 'pending' - once your child's Class Teacher receives your photo, they will 'approve' it.

Once your Class Teacher has approved your photo, it has been uploaded into the portfolio activities folder!
